

# Nitrile (NBR), Hydrogenated Nitrile (HNBR/HSN) and Carboxylated Nitrile (XNBR)

NBR	HNBR/HSN	XNBR
Nitrile Butadiene Rubber (NBR)	Hydrogenated Nitrile Butadiene Rubber (HNBR) or Highly Saturated Nitrile (HSN)	Carboxylated Nitrile Butadiene Rubber (XNBR)
<b>Temperature Range:</b> (Buna-N) between -40°C and +135°C (Low-temperature) between -65°C and +120°C	<b>Temperature Range:</b> between -26°C and +160°C	<b>Temperature Range:</b> between -54°C and +135°C
<b>Key Uses:</b> <ul style="list-style-type: none"> <li>• Aircraft fuel systems</li> <li>• Automotive fuel systems</li> <li>• Can be used with petroleum oils, water and hydraulic fluids</li> <li>• Low-temperature military uses</li> <li>• Marine fuel systems</li> <li>• Off-road equipment</li> <li>• Oil resistance applications of all types</li> </ul>	<b>Key Uses:</b> <ul style="list-style-type: none"> <li>• All oil resistant applications, including exposure to such oil additives as detergents, anti-oxidants and anti-wear agents</li> <li>• Automotive and Oil industries</li> <li>• Automotive fuel handling systems</li> <li>• Can be used with petroleum oils and water, H2S and CO2</li> <li>• Exposure to oil soured with metal sludge</li> <li>• Seals for oil well applications</li> </ul>	<b>Key Uses:</b> <ul style="list-style-type: none"> <li>• Can be used with petroleum oils and water</li> <li>• Hoses</li> <li>• Reciprocating oil seals</li> <li>• Rubber belts</li> <li>• Sealing parts</li> <li>• Special purpose articles in oil well</li> <li>• Dynamic assemblies, such as seals and rod wipers</li> </ul>
<b>Limitations:</b> <ul style="list-style-type: none"> <li>• Compounds are attacked by Ozone in small quantities. Phthalate plasticizers, which are used in compounding Nitrile rubber, migrate out and cause issues with some other plastics</li> <li>• Not recommended for exposure to ketones, phosphate esters, H2S, ether and chlorinated hydrocarbons</li> <li>• Do not use with brake fluid</li> </ul>	<b>Limitations:</b> <ul style="list-style-type: none"> <li>• Not recommended for exposure to ethers, esters, ketones or chlorinated hydrocarbons</li> <li>• Avoid using with brake fluid</li> </ul>	<b>Limitations:</b> <ul style="list-style-type: none"> <li>• Compounds are attacked by Ozone in small quantities</li> <li>• Not recommended for exposure to phosphate esters, ketones, ozone, weathering and strong acids</li> <li>• Do not use with brake fluid</li> </ul>
<b>Chemical Resistance:</b>	<b>Chemical Resistance:</b>	<b>Chemical Resistance:</b>
Acids, dilute Good	Acids, dilute Good	Acids, dilute Good
Acids, Organic (dilute) Good	Acids, Organic (dilute) Good	Acids, Organic (dilute) Good
Alcohols Good	Alcohols Excellent	Alcohols Good
Alkalis, dilute Good	Alkalis, dilute Good	Alkalis, dilute Good
Amines Poor	Amines Good	Amines Poor
Ammonia Good	Ammonia Poor	Ammonia Poor
Animal & Vegetable oils Excellent	Animal & Vegetable oils Excellent	Animal & Vegetable oils Excellent
Brake fluids Poor	Biological oils Good	Brake fluids Poor
Diester oils Good	Brake fluids Fair	Diester oils Good
Esters Poor	Diester oils Good	Esters Poor
Ethers Poor	Esters Poor	Ethers Poor
Fuel, Aliphatic Hydrocarbon Excellent	Ethers Poor	Fuel, Aliphatic Hydrocarbon Excellent
Fuel, Aromatic Hydrocarbon Good	Fuel, Aliphatic Hydrocarbon Excellent	Fuel, Aromatic Hydrocarbon Good
Fuels Excellent	Fuel, Aromatic Hydrocarbon Good	Fuels Excellent
Hydraulic fluids Excellent	Fuels Excellent	Hydraulic fluids Excellent
Hydrocarbon Fair	Hydraulic fluids Excellent	Hydrocarbon Poor
Ketones Poor	Hydrocarbon Poor	Ketones Poor
LP Gasses & Fuel oils Excellent	Ketones Poor	LP Gasses & Fuel oils Excellent
Mineral oils Excellent	LP Gasses & Fuel oils Excellent	Mineral oils Excellent
Oil resistance Excellent	Mineral oils Excellent	Oil resistance Excellent
Petroleum based oils & fluids Excellent	Motor oils Excellent	Petroleum based oils & fluids Excellent
Silicone oils & greases Good	Oil resistance Excellent	Silicone oils & greases Good
Solvents Excellent	Ozone Good	Solvents Good
Water Excellent	Petroleum based oils & fluids Excellent	Water Good
	Silicone oils & greases Excellent	
	Solvents Poor	
	Sour Gas Good	
	Water Excellent
